RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Original publisher: Golden, Colo. : National Renewable Energy Laboratory, 2004 OCLC Number: (OCOlc)226246188 Subject: Sustainable development. Excerpt: . . . E P P N VIRONMENTALLY REFERABLE URCHASING ederal directives have established goals for Key Eff orts Fenvironmentally preferable purchasing. Federal agencies consider factors such as the Duplex modules were installed amount of recycled content in products, use on all 77 network printers, which default to the double-sided of bio-based and recovered materials, reuse of printing option, products, and the ultimate recyclability of products. As of FY 2001, NREL no longer purchases equipment containing One hundred percent ( 100 ) of all CFC, HCFC, and Halon. Laboratory carpet, toner cartridge, and offi ce paper purchases have recycled content. Whenever possible, NREL purchases Energy Star Products, energy-effi cient computer equipment, and LCD monitors. In FY 2005, NREL will require that its offi ce supply vendor off er a green-only purchase catalog. In FY 2003, 74, 334 pounds of paper was purchased and 186, 182 pounds was recycled. To address this challenge in FY 2005, NREL will establish an Electronics Processing Initiative that will reduce the amount of paper coming into...
