

A 5-Year Study of the First Edition of the Core-Plus Mathematics Curriculum Hc Research in Mathematics Education

By Christian R. Hirsch

Information Age Publishing. Hardcover. Book Condition: New. Hardcover. 422 pages. Dimensions: 9.3in. x 6.2in. x 1.1in. A volume in Research in Mathematics Education Series Editor Barbara J. Dougherty, Iowa State University The study reported in this volume adds to the growing body of evaluation studies that focus on the use of NSF-funded Standards-based high school mathematics curricula. Most previous evaluations have studied the impact of field-test versions of a curriculum. Since these innovative curricula were so new at the time of many of these studies, students and teachers were relative novices in their use. These earlier studies were mainly one year or less in duration. Students in the comparison groups were typically from schools in which some classes used a Standards-based curriculum and other classes used a conventional curriculum, rather than using the Standards-based curriculum with all students as curriculum developers intended. This volume reports one of the first studies of the efficacy of Standards-based mathematics curricula with all of the following characteristics: The study focused on fairly stable implementations of a first-edition Standards-based high school mathematics curriculum that was used by all students in each of three schools. It involved students who experienced up to seven years of Standards-based mathematics...
