This publication will never be effortless to get started on reading through but very entertaining to read through. It normally is not going to expense too much. I discovered this publication from my dad and i encouraged this book to find out.

Indian Council of Philosophical Research, New Delhi, 2000. Soft cover. Book Condition: New. First. 12 X 20. This book explores the philosophical dimensions of Bhakti tradition in India in all their variety and depth, and raises the question such as whether the world of feelings which is intrinsically subjective and personal in character can ever be an object of rational enquiry. It asks "Is Bhakti possible without belief in Personal God or any other God whatsoever?" and tries to articulate the 'ideals' immanent in the life of feeling without reference to those involved in knowledge.
