The Handbook: This compact handbook is a great resource for any high school or middle school student. It uses recent brain research to help a teenager learn how to use his or her unique brain most effectively in school and then in college or on a carefully selected career path. Summary of Main Points Explained in the Handbook 1. Using brain-friendly techniques improves learning. 2. LEARNING HOW TO LEARN is an important subject. 3. Brain characteristics vary based on left-right dominance and upper-lower thinking preferences. 4. The left brain favors logic, words, and numbers. 5. The right brain favors randomness and images. (Use drawings in your notes.) 6. Different styles of receiving information include auditory, visual, somatic, and reflective. 7. Use your preferred style for difficult learning, but grow your comfort with other styles also. 8. Graphic organizers can be useful to most learners. 9. The brain tends to remember useful information. 10. Using multiple senses usually results in more learning than using one sense. 11. Discussion with others can aid learning. 12. Using information gives...
