Condition: New. Publisher/Verlag: Penguin US | Guardians of the Galaxy meets The Hitchhiker's Guide to the Galaxy in this wild, warm-hearted, and hilarious sci-fi debut about a brainy young girl who is recruited for a very special boarding school. Nikola Kross has given up on living in harmony with classmates and exasperated teachers: she prefers dabbling in experimental chemistry to fitting in. But when her life is axially inverted by a gang of extraterrestrials who kidnap her dad and attempt to recruit her into their service, she discovers he's been keeping a world of secrets from her--including the school for geniuses where she's sent for refuge, a place where classes like Practical Quantum Mechanics are the norm and where students use wormholes to commute to class. For Nikola, the hard part isn't school, it's making friends, especially when the student body isn't (entirely) human. But the most puzzling paradox of all is Nikola herself, who has certain abilities that no one understands--abilities that put her whole school in greater danger than she could have imagined. "A glorious cacophony of wildly inventive gadgets, gags, and action." --Kirkus Reviews, starred review | Format: Paperback | Language/Sprache: english | 352 pp.
